

PV-10S

COMMERCIAL EMBROIDERY MACHINE
WITH INTUITIVE 10.1" HIGH-DEFINITION TRUE-COLOR TOUCH SCREEN

MAIN FEATURES

The PV-10S has a wide range of capabilities and functions for commercial use but is still sleek and compact enough for at-home businesses.

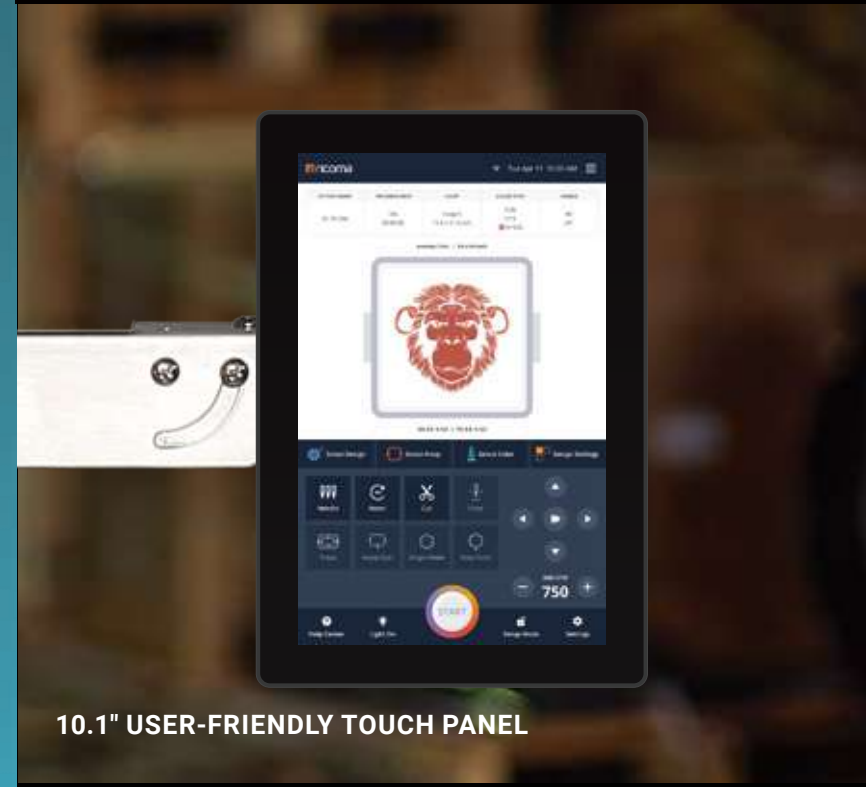

- Suitable for embroidery on flats, caps, finished garments and more!
- Perfect for small and established businesses alike
- High-Definition True-Color 10.1-inch LCD Touch Screen
- Maximum embroidery area: 520 x 350 mm (20.5 x 13.8 in)
- Maximum speed: 1200 spm
- Large memory capacity: 100 million stitches or 1000 designs
- Machine reads multiple design formats such as DST, DSB, TBF and more
- Wide angle cap system: 270°
- Smaller sewing arm greatly improves the performance of cap embroidery and embroidery on small items
- Heavy-duty steel stand with wheels for both stability and mobility
- Multiple hoop sizes for a variety of embroidery needs
- Automatic color change
- Automatic thread trimmer
- Reinforced upper thread clamp to ensure stable trimming
- Thread break detection
- Networkable – USB input or direct transmission from PC via LAN port
- Easily add appliqué, sequin or cording
- Frame offset and frame outlining are available for easy appliqué embroidery
- Automatic memory retention
- Adjustable control panel positioning for better visibility and comfort
- Built-in button from 172° to 196° under manual color change mode to help with machine maintenance
- Recessed USB port to protect USB flash drive
- Multiple languages: English, Chinese, Spanish, French, German, Russian, Arabic, Korean, Portuguese, Dutch, Turkish, Vietnamese, Thai, Italian, Czech, Polish, Ukrainian, Hungarian
- DC36V micro-step motor for X & Y axis driving ensures low noise and less vibration
- Compatible with optional laser tracing device
- Front LED lamp provides better visibility and protection for eyes against strong light during threading
- Environmentally friendly packaging
- Perfect for mass production of patches
- Slim machine width allows for easy entry through standard-sized doors
- Servo motor 150W – lowest power consumption in the industry!
- Built-in universal power supply, 110V/60Hz and 220V/50Hz self-adaptable worldwide

FROM PASSION TO PROFIT

THE PERFECT EMBROIDERY MACHINES FOR ENTREPRENEURS

The PV-10S are the industry's best commercial embroidery machines for entrepreneurs who are ready to profit from their custom creations. Whether it's a side hustle, full-time start-up or a growing business, the PV-10S delivers high-quality, high-speed, and high-precision embroidery on a wide variety of garments.

Equipped with its groundbreaking **Simplexity** technology, made possible by the **latest 10.1-inch control panel**, the PV-10S is specially designed to make machine embroidery incredibly simple and easy to learn.

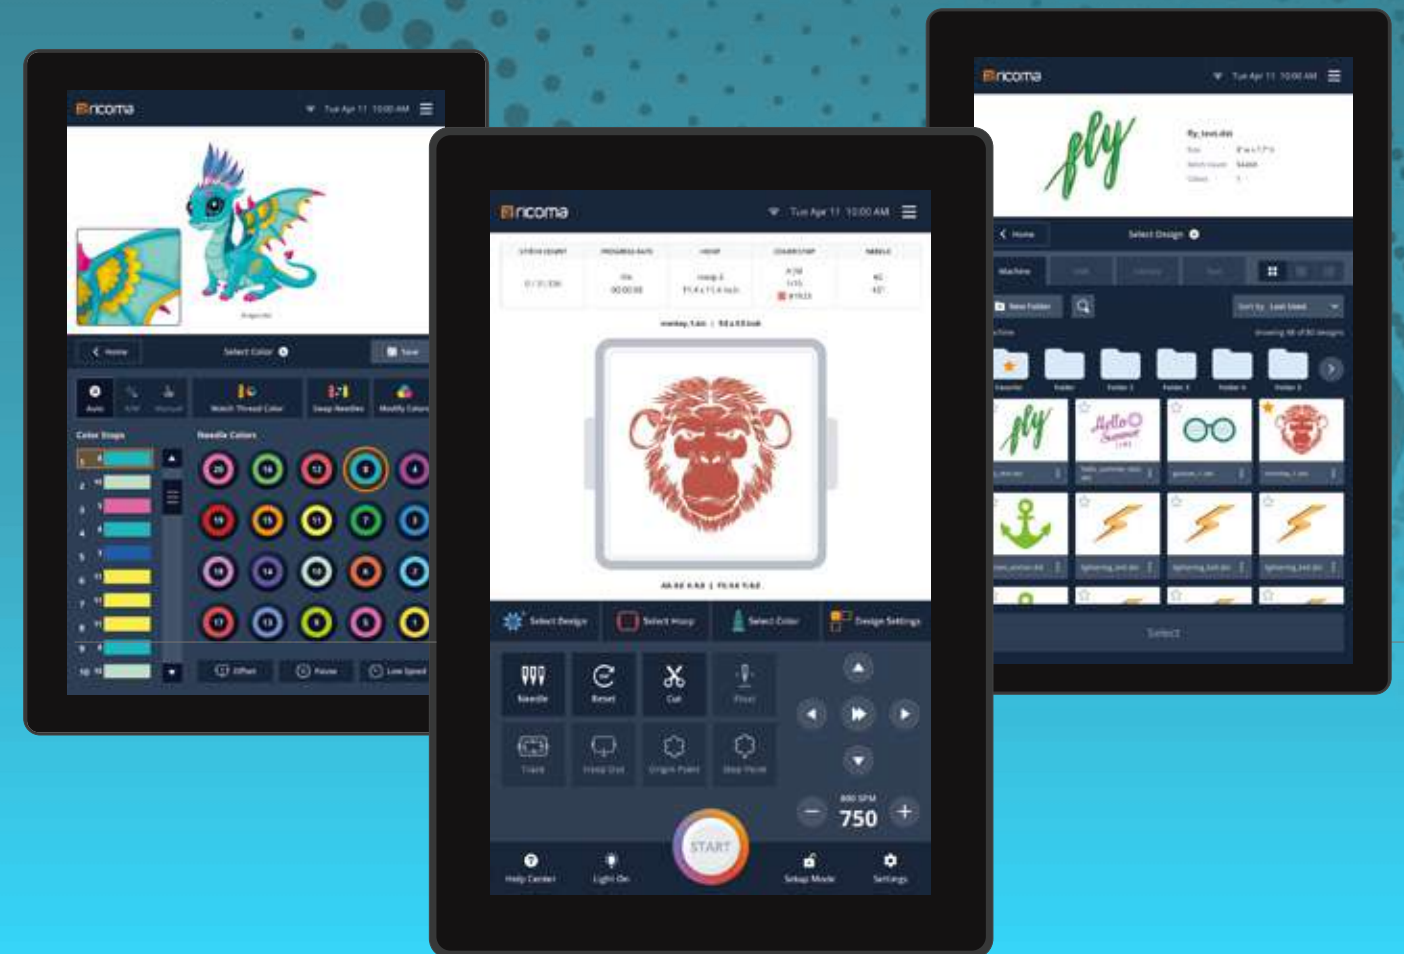

Simplexity TECHNOLOGY

INTRODUCING THE NEWEST 10.1-INCH TOUCHSCREEN PANEL

The 10S model boasts an impressive 10.1-inch touchscreen panel that is intuitive and user-friendly. You'll enjoy the convenience of its **simple user interface** which makes it incredibly easy to navigate the machine's numerous functions and tools.

Powered by its innovative **Simplexity** technology, the 10S panel has a built-in **Tool Tips function** and a **help center** to provide an explanation of the selected option on the screen. Knowing what a specific tool does is an excellent way to quickly learn about your machine's capabilities, prevent user errors, and create an efficient workflow.

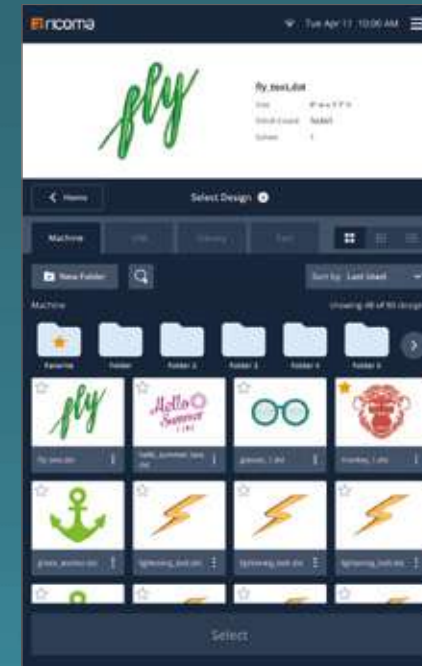

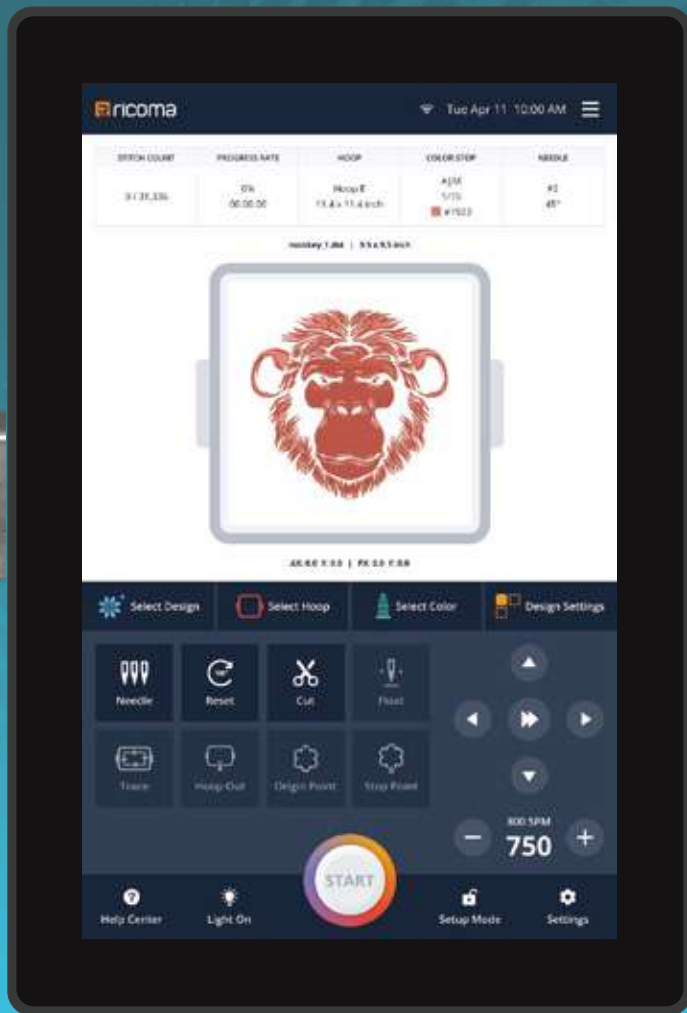

Additionally, the new **maintenance alert feature** does the thinking for you to remind you when basic maintenance needs to be done on your machine to reduce the learning curve and help your machine run smoothly.

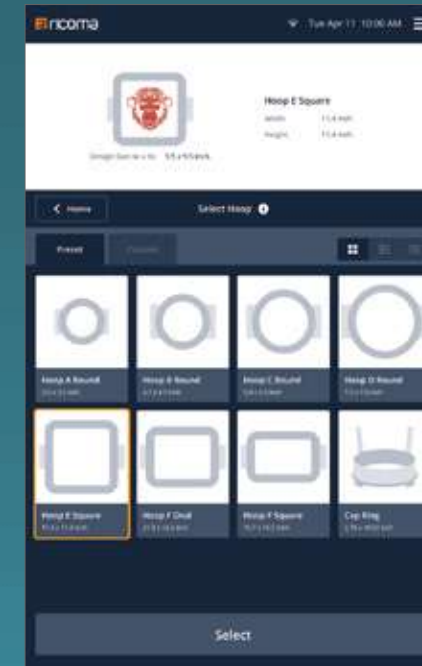

PANEL FEATURES

TECHNICAL SPECIFICATIONS

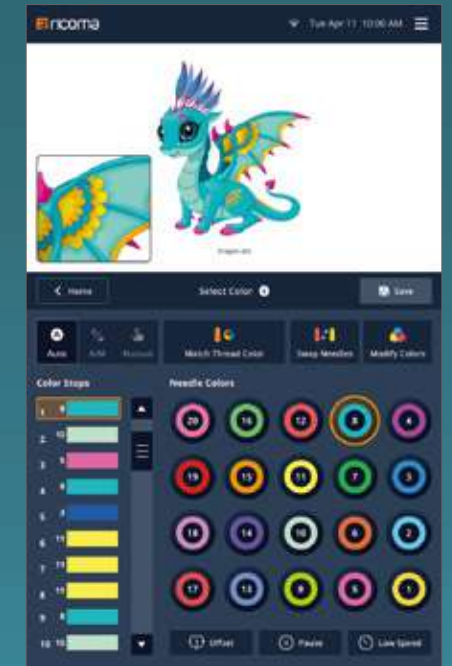

- Large memory capacity: 100 million stitches or 1000 designs with a maximum of 1000 automatic color changes
- Machine reads multiple design formats such as DST, DSB, TBF and more

HOOPS & CAP ATTACHMENTS

A RANGE OF HOOP SIZES AND SASH FRAMES TO KICKSTART ANY EMBROIDERY SHOP

The PV-10S comes with everything you need to embroider just about any item so that you can take on a range of projects. Each machine includes a variety of hoop sizes for embroidering small designs like left-chest logos and large designs on bags, towels and more.

	x2	90 x 90 mm (3.5 x 3.5 in)
	x2	120 x 120 mm (4.7 x 4.7 in)
	x2	150 x 150 mm (5.9 x 5.9 in)
	x2	190 x 190 mm (7.5 x 7.5 in)
	x2	290 x 290 mm (11.4 x 11.4 in)
	x1	540 x 360 mm (21.3 x 14.2 in)

CAP ATTACHMENTS INCLUDED

With the included cap attachments, you can embroider a variety of cap styles. Each PV-10S machine comes with a hoop station, cap rings and cap driver(s) for all of your cap embroidery needs.

	x2	Cap rings snap into the hoop station to prepare the machine for cap embroidery
	x1	Hoop station provides stability for fast and easy cap hooping
	x1	Cap driver snaps into the embroidery machine's bracket holder for hoops

EXTENDED EMBROIDERY AREA

EXTEND YOUR EMBROIDERY AREA TO CREATE LARGE, DETAILED DESIGNS WITH EASE

The extended table is the perfect aide for embroidery on oversized items such as drapery, blankets, banners, mattress borders, wedding dresses, quilt covers and much more. The additional space will help you expand your embroidery shop and attract new customers.

Frame Models	Embroidery Area	Machines
W-2214	540 x 365 mm (21.3 x 14.4 in) *Optional	PV-10S
EW-4814-2	1230 x 365 mm (48.4 x 14.4 in) *Optional	PV-10S

OPTIONAL ADD-ONS

BROADEN YOUR POSSIBILITIES WITH THESE AFFORDABLE AND EASY-TO-USE ADD-ONS!

These attachments make hooping and adding embroidery effects a breeze. Embellish your designs with sequins, boring or cording, or use specialty hoops to gain more control over your embroidery projects.

DEVICES

Sequin Device (SQ-E)

Attach the optional sequin device to your embroidery machine to add a pop of sparkle to your designs.

Cording Device (CD-E)

Easily create an embroidery effect with the cording device, which lays cord on fabric and attaches the cord with transparent zigzag

Laser Cutting Device

High powered laser beam to cleanly cut a specific design on materials such as patches, labels, and many other fabric decorations. All these can be achieved with high precision and speed.

Twin Sequin Device (2SQ-E)

Double your sequin capabilities with double the color and coil with the optional twin sequin device.

**For a list of all compatible devices, contact a product specialist.*

ACCESSORIES

8-in-1 Hoopset (8D-2)

Includes 8 frames that make embroidering easier than ever before. It's designed for hard-to-hoop items such as shirt pockets, socks, backs of caps, shirt sleeves, collar tips and more.

Belt Hoop (BH-2)

With an 8-inch x 4-inch embroidery area, the belt hoop provides ample room for embroidery on belts and straps.

Mighty Hoop Magnetic Hoops

This magnetic hoop is popular among professional embroiderers because it makes hooping any type of flat garment easier than ever.

Boring Needle

This specifically designed needle creates intricate embroidery by piercing the fabric, cutting it into various shapes, and leaving holes in the item.

Robot Frame (RF-M)

Firmly clamp and embroider difficult-to-hoop items like shoes, purses, bags and more with the robot frame.

Laser Positioning Device (LD)

This easy-to-install tracing tool lets you quickly determine if the design is within the hoop range.

**For a list of all compatible devices, contact a product specialist.*

TAILORED TO FIT YOUR NEEDS

12&15-NEEDLE SOLUTIONS

Available in 12 or 15 needles, the PV SERIES 10S are fast and efficient machines designed to meet the needs of decorators of all experience levels. Ideal for both new and established apparel businesses alike, this versatile series is for anyone that wants to increase their ability to produce high-quality embroidery.

STARTUP PACKAGE
