Bigger Designs. Faster Stitches. Sleek New Look.

The Marquee 2 Series is designed for your biggest projects. Its wide head spacing and large embroidery area make it easy to stitch oversized designs and bulky items like jackets, bags, and home décor. Speeds up to 1350 stitches per minute let you finish projects quickly while maintaining quality.

Its adjusts to thick or uneven fabrics for clean, consistent results on caps, jackets, and delicate garments. A sleek head design and sturdy steel stand with built-in storage keep your workspace organized and professional.

Modern Head Design

A sleek, updated look that matches the advanced performance of the Marquee 2 Series.

Larger Embroidery Area with Wide Head Spacing

Create bigger designs and easily work with bulky items like jackets and bags.

Up to 1350 Stitches Per Minute

Complete projects faster without sacrificing stitch quality.

Real-Time Thread Monitoring

Detects thread issues instantly and helps prevent interruptions.

Steel Stand with Built-In Storage Panels

Keep hoops, frames, and tools organized and within reach while maintaining a clean, professional workspace.

Smarter Features for Seamless Embroidery

Advanced technology makes the Marquee 2 Series simple to operate while keeping your stitching smooth and accurate. The 10.1" HD full-color touchscreen puts all your designs and controls right at your fingertips, making setup and adjustments effortless.

The machine constantly watches your threads with real-time thread monitoring to catch breaks or tension issues instantly, helping you avoid interruptions. Motorized thread clamps keep threads secure for clean cuts, while RGB multicolor lights alert you to thread breaks at a glance. With these smart upgrades, every project is worry-free from start to finish.

10.1" HD Full-Color Touchscreen

Simple, clear navigation for selecting and controlling designs.

Motorized Thread Clamp

Keeps threads stable for cleaner trims and sharper embroidery.

Lead Screw Color Change

The lead screw color change function in embroidery machines enables precise control of color positions and reduces deviations, thereby ensuring neat color transitions in embroidery patterns.

RGB Multicolor Lights with Thread Break Detection

Lights up to show thread color and flashes for quick break alerts.

Designed for Effortless Embroidery

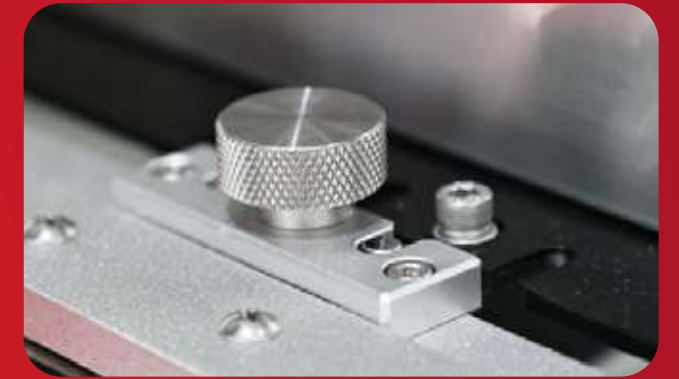

From hooping to stitching, the Marquee 2 Series makes every step simple. Quick frame clamps let you swap hoops in seconds, so you can move from one project to the next without delay.

The slimmer sewing arm allows you to easily embroider sleeves, pockets, and other tight areas while expanding your creative possibilities. With power-loss protection, your work stays safe and you can resume stitching right where you left off.

Slimmer Sewing Arm

The narrow sewing arm makes it easy to embroider sleeves, pockets, and other hard-to-reach areas while opening the door to more project possibilities, from small accessories to detailed garment work.

Tool-Free Quick Frame Clamps

Change hoops quickly and easily—no tools required.

Emergency Stop Button

The system initiates immediate and unconditional termination of all machine functions upon emergency activation, ensuring failsafe protection against human harm and mechanical damage.

Three-head Solutions

The Marquee 2 Three-head machine is designed for versatility. Load multiple threads at once to streamline your workflow, reduce downtime, and create detailed embroidery on everything from thick jackets to soft, tiny apparel.

Smart Control Panel Features

Operate your Marquee 2 with ease using its high-definition touchscreen panel. Designed for smooth navigation and simple operation, the panel puts every function at your fingertips—so you can focus on creating. Store thousands of stitches, preview designs before you stitch, and access maintenance tools and settings without leaving the home screen.

Easy-to-Use Touchscreen

Intuitive touchscreen design with smooth navigation and thumb-friendly controls—perfect for both beginners and experienced users.

Massive Design Storage

Holds up to **100 million stitches** or 1000 designs, so you can work on large projects or store your entire library.

Multiple File Formats Supported

Reads popular embroidery file types like DST, TBF and more.

Frame Offset and Outline Settings

Easily adjust frame positions and outline stitches for clean, accurate appliqué embroidery.

Supports Multiple Languages

Operate the panel in over 15 languages including English, Spanish, Chinese, Arabic, Vietnamese, French, and more.

Wi-Fi & Network Capable

Connect to your network for seamless design transfers and software updates—no cables needed.

Hoop-Friendly Settings

Comes with **preset hoop parameters** to help you avoid hitting the frame—saving time and avoiding mistakes.

Automatic Color Change

Easily switch between threads during multi-color designs with built-in automation.

Maintenance Shortcuts

Built-in **178° and 201° movement keys** make machine maintenance simple and accessible.

Fast Design Tracing

Trace your design placement with a **one-touch button** directly from the home screen.

Automatic Thread Trimmer

Cuts threads between color changes or after a design finishes—saving time and cleanup.

Design Preview

Get a clear, detailed **visual preview** of your design for better accuracy before you stitch.

Screenshot Tool

Capture your screen to record settings or troubleshoot with support when needed.

Hoop Sizes & Quantities

The Marquee 2 comes with everything you need to embroider just about any item. Each machine includes a variety of hoop sizes so you can embroider small designs like left-chest logos and large designs on bags, towels and more.

Hoop A - 90 × 90 mm (3.5 × 3.5 in)

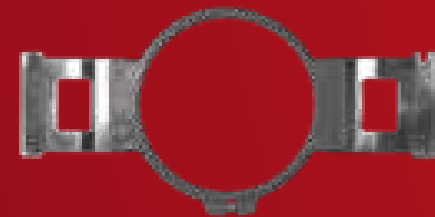

Quantity by Machine Type:

- Three-head: 6 hoops
- Four-head: 8 hoops
- Six-head: 12 hoops

Hoop B - 120 × 120 mm (4.7 × 4.7 in)

Quantity by Machine Type:

- Three-head: 6 hoops
- Four-head: 8 hoops
- Six-head: 12 hoops

Hoop C - 150 × 150 mm (5.9 × 5.9 in)

Quantity by Machine Type:

- Three-head: 6 hoops
- Four-head: 8 hoops
- Six-head: 12 hoops

Hoop D - 190 × 190 mm (7.5 × 7.5 in)

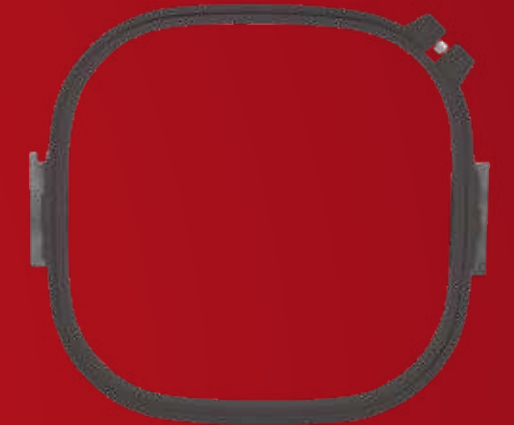

Quantity by Machine Type:

- Three-head: 6 hoops
- Four-head: 8 hoops
- Six-head: 12 hoops

Hoop E - 290 × 290 mm (11.4 × 11.4 in)

Quantity by Machine Type:

- Three-head: 6 hoops
- Four-head: 8 hoops
- Six-head: 12 hoops

Hoop F - 540 × 360 mm (21.3 × 14.2 in)

Quantity by Machine Type:

- Three-head: 3 hoops

Everything You Need for Caps

With the included cap attachments, you can embroider a variety of cap styles. Each Marquee 2 comes with a hoop station, cap rings and cap driver(s) for all of your cap embroidery needs.

Cap Rings

Quantity by Machine Type:

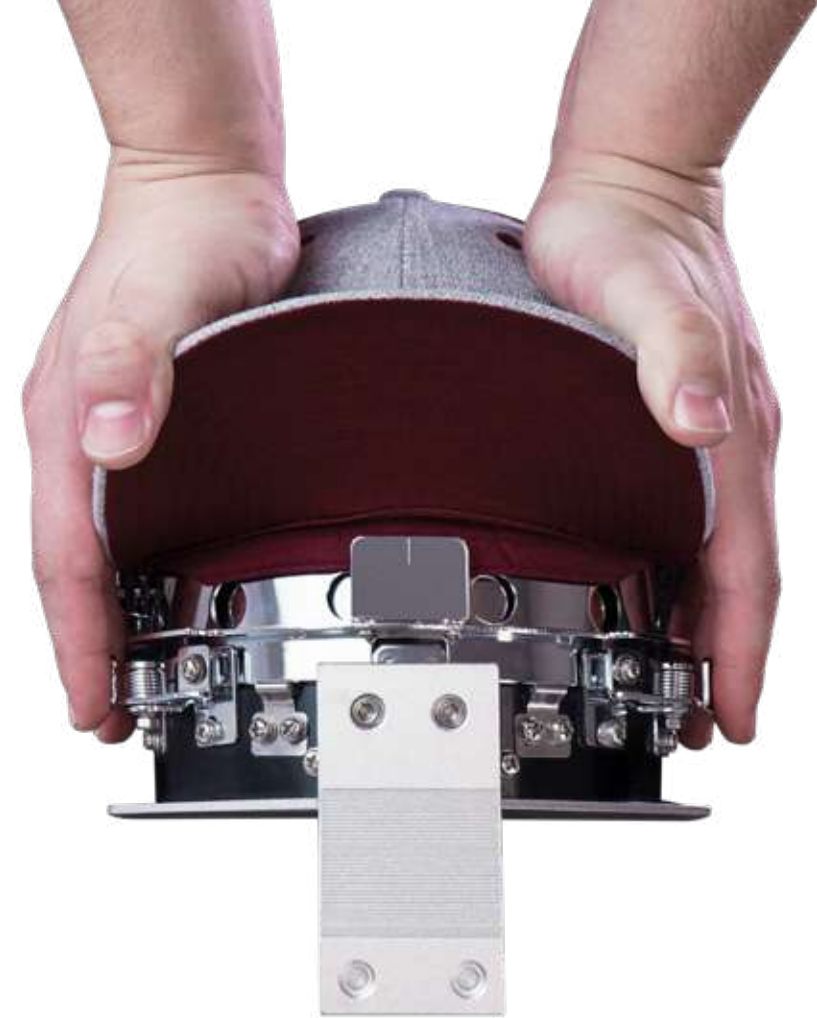

Three-head: 6 rings
Four-head: 6 rings
Six-head: 12 rings

Hooping Stations

Quantity by Machine Type:

Three-head: 1 hooping station
Four-head: 1 hooping station
Six-head: 1 hooping station

Cap Drivers

Quantity by Machine Type:

Three-head: 3 cap driver
Four-head: 4 cap drivers
Six-head: 6 cap drivers

Add-Ons & Accessories for Every Project

These attachments make hooping and adding embroidery effects a breeze. Embellish your designs with sequins, boring or cording; or use specialty hoops for all embroidery needs.

Sequin Device

Attach the optional sequin device to your embroidery machine to add a pop of sparkle to your designs.

Cording Device

Easily create an embroidery effect with the cording device, which lays cord on fabric and attaches the cord with transparent zigzag stitches.

8-in-1 Hoopset

Includes 8 frames that make embroidering hard-to-reach areas easier than ever before. Designed for non-hoopable, difficult items such as shirt pockets, socks, backs of caps, shirt sleeves, collar tips and more.

Belt Hoop

With an 8 x 4 in (200 x 100 mm) embroidery area, the belt hoop allows ample room for embroidery on belts and straps.

Mighty Hoop Magnetic Hoops

This magnetic hoop snaps together to make hooping any type of flat garment easier than ever.

Double Bead Device + Sequin Device

Seamless automatic switching between dual metallic sequins and dual beads enables high-speed production of opulent, multi-layered embroidery embellishments.

Bead Device

Explore your creativity to include intricate bead work with the optional bead device.

Boring Needle

This specifically designed needle creates intricate embroidery by piercing the fabric, cutting it into various shapes, and leaving holes in the item.

Robot Frame

Embroider on difficult-to-embroider and unusually shaped items such as bags, shoes and purses with the robot frame.

Laser Device

With this easy-to-install tracing tool, there's no more hitting hoops — just simply watch the laser pointer trace the design in seconds.

Startup Package

The Marquee 2 Startup Package includes all the essential add-ons and equipment you need to begin embroidering as soon as your machine arrives. From premium accessories and high-quality supplies to helpful software and expert support, everything is included to help you start creating without the need for extra purchases.

Heavy-Duty Steel Stand

Provides sturdy support and easy mobility with lockable wheels—perfect for a secure and flexible workspace.

Hoop and Cap Attachment Set

Includes a full range of hoops and two cap attachments so you can embroider a wide variety of items, from flats to hats.

Chroma Digitizing Software

Feature-rich and easy to use, Chroma lets you digitize or edit embroidery designs with precision and flexibility.

Madeira Thread & Supply Starter Kit

A curated set of professional-quality threads, bobbins, backing, and more to get you stitching right away.

Otto Cap Starter Kit

Comes with a selection of blank Otto caps—ready to embroider straight out of the box.

3-Month Hoopmade Subscription

Explore a design library filled with ready-to-use files, templates, and creative inspiration tailored to your machine.

Unlimited Training & Lifetime Support

Enjoy hands-on training, personalized guidance, and lifetime technical support available 7 days a week—even after hours.

The items above are only included in the startup package when buying directly from Ricoma International Corporation in the United States.
